# AUDIT SCOPE, OBJECTIVES & TEST PROCEDURES | ADJUD-DIS01

## Audit Objective

To assess whether: (1) the monthly STD to LTD Transition report is reviewed and signed off by Claims senior management (Corporate VP) and distributed to the Reserving department on a timely basis; (2) the Claims Team Leader review comments are substantiated by AdminSuite system data for sub-sampled claims; and (3) the report is generated using consistent and appropriate parameters / SQL logic as documented.

## Control Population

Monthly STD to LTD Transition Reports generated from AdminSuite for FY 2025.
Each report covers claims within 14 days of STD benefit termination date not yet loaded for LTD.

## Sample Selection

Sample 1: April 2025 Month End STD to LTD Assessment Report.
Sub-Sample 1: Claim 14076616-01 — Hammock, Stacey (Kret Inc.) — Comment: LTD Claim Created.
Sub-Sample 2: Claim 14214525-01 — Dion, Ronald (Excellence Learning Ltd) — Comment: No LTD.
Sub-samples selected from 6 claims in the April 2025 report population.

## TS-1 Procedures (Sample Level)

1. Obtain the monthly STD to LTD Transition report for the sample month (April 2025).
2. Inspect the report for evidence of Claims Team Leader review comments against each claim.
3. Verify the report is signed off / approved by the Claims Corporate Vice President.
4. Confirm the report (with sign-off) was emailed to the Reserving team.
5. Inspect email evidence: sender = Claims Corporate VP, recipient = Reserving department, subject references the correct month/period, attachment = the final report.

## TS-2 Procedures (Sub-Sample Level)

1. For each sub-sampled claim, obtain AdminSuite screenshot.
2. Verify claim details (Claim ID, Claimant, Policy, Client) agree with the report.
3. Inspect AdminSuite Tasks/workflow to confirm comment is substantiated:
- 'LTD Claim Created': Verify STD to LTD Transition task exists in AdminSuite (Closed).
- 'No LTD': Verify claim status shows no LTD loading / Comments field = 'No LTD'.
4. Confirm claim details match the monthly report data.

## TS-3 Procedures (Sample Level)

1. Obtain screenshot of the SQL query or system parameters used to generate the report.
2. Verify the query logic is consistent with the control description:
- Pulls STD claims within 14 days of benefit termination date.
- Excludes claims already loaded for LTD (LEFT JOIN / IS NULL filter).
- Identifies transition status (LTD Claim Created vs Pending Transition).
3. Confirm the parameters match the population of claims in the tested report.
